## **Central Okanagan School District** **To Build A New School Board Office/Administration Facility**

**Kelowna, B.C. –**

The Board of Education has entered into a unique Design-Build arrangement to construct a new administration building. The proceeds from the sale of the current school board office site, along with other land sales, will be used to construct the facility adjacent to the Hollywood Road Education Centre located at 1040 Hollywood Road. The new structure will house the school board office and the administrative offices for the school district, and will improve the efficiency of administrative operations and provide space for future growth.

The new structure will support BC's Wood First Initiative and will be energy efficient to a LEED Gold standard.

Housing the school board office/administration building and education centre on one site was a concept that was first contemplated nineteen years ago. Until now, conditions have not been favourable for the Board to proceed with the plan.

Construction will begin this summer and it is expected that the new facility will be ready for occupancy by August 2017.

A sod turning celebration will be held at 11:00 am on Friday, June 10, 2016, at the Hollywood Road Education Centre.
